

My Whole Life Story
by Chris Cruz

My name is Irene Cruz
came into this world on June 27 1984
the oldest of my two brothers and one sister
Always had a great time when we were little
always playing and laughing
getting older was like -one more step onto becoming a women
high school was a struggle for me but I did it with no help
My mom and dad took me in when I was a single mother raising a baby boy
Each year he grew up
Brought tears of happiness to my eyes
Now I know that having a husband was just a waste because I didn't need no help
becoming a mother was the best thing for me
